Off Campus Interview Preparation Guide - GTF

Interview Format

To evaluate both technical and cultural fit, potential Software Engineering candidates will be required to go through these various rounds of interviews.

- **Solo coding round at home.**
- **Machine Coding / Code Pairing Round - 1 hour**
- **Technical Interview - 1 hour**
- **HR Interview**

Solo Coding Round Assignment

The Problem statement is sent to you a day before your code pairing round.

- Code can be written in any Object oriented or functional language.
- Code should be idiomatic for the language chosen.
- Code should follow SOLID principles.
- Solutions with Unit tests will be given more priority. (Add if possible)
- Use Git (or other version control tools) to make frequent commits. (Add if possible).
- Please follow the directory structure and file name conventions of the language you use.
- Follow good coding practices and principles (These carry weightage in the review)
- Remember we are not only looking at completing the solution, but also the approach one takes at solving it.

Note:

- After receiving the problem statement, you are expected to read it thoroughly.
- **Please note, the submitted solution must pass the sample test cases.**

Machine Coding / Coding Pairing Interview:

- We review the code you have written in the solo coding round
- There will be an extension given for the same problem statement.

- Evaluating Problem Solving, Data Structure, Algorithms, Programming.
- Always ask clarifying questions & gather requirements if extensions are asked on a project explained. Adopt a structured approach in your answers
- Have a sound understanding of your current projects, key technologies used and the tradeoffs of each as the interview is mostly focused on past / current projects.
- Refresh concepts on tech stacks used in last projects.

What's Next?

After you have completed the above interview process, it will take a few days for the recruiting team to collect all the interview feedback and update you on the result. If the feedback is positive, we will then initiate the offer process.
